

International Recycling Incubation Summit

India Habitat Centre | 16-17 January, 2026

CUSTOIDEANS OF TOMORROW

INTERNATIONAL YOUTH COHORT OPPORTUNITY

As part of the global engagement effort, select participants will have the optional opportunity to be introduced to teams from universities or youth organizations abroad, who are also submitting entries under similar themes and solutions.

- This collaboration aims to encourage cross-cultural learning, joint idea development, and the creation of globally relevant solutions.
- If both the participating teams agree to collaborate, they may form a combined team and submit a joint entry.
- The combined team will be judged as a single unit, and in the event of winning, the award will be shared equally among the team members from both countries.

Please Note:

- The International Youth Cohort opportunity is optional and will be extended only to a limited number of shortlisted entries based on innovation and alignment of themes.
- The Summit secretariat's role is limited to introducing the teams.
- All further collaboration, communication, and submission will be managed independently by the participants.

Final digital presentation must clearly indicate the names and affiliations of both teams.
